Date of Birth: 04/30/1959
Encounter Date: 06/30/2021 09:51

Sex: M Race: AMERICAN
Provider: Beyer, Sara M.D.

Reg #: 20126-057
Facility: BUT
Unit: F01

Chronic Care - Chronic Care Clinic encounter performed at Health Services.

SUBJECTIVE:

COMPLAINT 1 Provider: Beyer, Sara M.D.

Chief Complaint: Chronic Care Clinic

Subjective: IM is in Chronic care and his main problems are:

*Endocrine/Lipid - IM is on Atorvastatin 40 mg per day, last lipid panel reviewed with inmate. His total cholesterol was 208, Triglycerides 221, HDL 31, and LDL 131. IM states since his back has been bothering him he has not been exercising like he should. He is doing some walking at varying speeds for exercise. He states he will try to increase his walking since his lipid panel is not at goal. He is on atorvastatin 40 mg per day. We discussed his diet and exercise and made recommendations.

*Ortho - IM has chronic low back pain and states his exercising has helped some, as well as the medications. He is on Naproxen 500 mg twice daily, but is not on acetaminophen. He also has Gout and is on allopurinol 100 mg per day to prevent flares. He also tries to follow a low purine diet. He is due for another Uric acid. He denies any recent hot/erythematous joints.

*General - IM also has problems with chronic constipation and has transient abdominal pain. He was sent to OSH with severe abdominal pain and was diagnosed with severe cramps and spasms. He states the medication for the cramps did not help so he stopped taking it and is no longer on his drug list. He is on Bisacodyl 10 mg twice daily, Dulcorated Sodium 100 mg twice daily, and lactulose 10 gm (15 ml) twice daily, and Senna 8.6 mg twice daily and states this combination has been helping. He denies diarrhea or unrolled stools. He is also trying to exercise and drink more fluids.

Pain: Yes

Pain Assessment

Date: 06/30/2021 09:10
Location: Back-Lower
Quality of Pain: Aching
Pain Scale: 5
Intervention: Muscle relaxer
Trauma Date/Year:
Injury:
Mechanism:
Onset: 2-6 Months
Duration: 2-6 Months
Exacerbating Factors: bending, sitting too long, being in any position too long (other than laying or standing).
Relieving Factors: PT gave him a ball to help work out the sore spots.
Reason Not Done:
Comments: States the muscle relaxer is not really helping much

Seen for clinic(s): Endocrine/Lipid, General

Physician - Sick Call Note encounter performed at Health Services.

SUBJECTIVE:

COMPLAINT 1 Provider: Beyer, Sara M.D.

Chief Complaint: Abdominal Pain

Subjective: IM presents to sick call. He states he has been having abdominal pain since last Wednesday. He was seen by MLP who felt it was secondary to constipation and gave him some stool softener and suppositories and that is not relieving the pain. He states he feels like he is backed up to the top of his stomach. IM states he has been fighting this for a week. He states he took the pills he was given for constipation and had a little bit of movement, but feels he is still stopped up. He denies any history of problems with gallbladder or liver in the past. IM states he feels really tired, he states he did not sleep last night as the pain kept him awake. Last BM was this AM and was watery and no bleeding, He states he is belching a little bit more but not much. He states he gagged some this AM but no vomiting.

Pain: Yes

Pain Assessment

Date: 07/08/2020 08:05
Location: Abdomen-RLQ
Quality of Pain: Aching
Pain Scale: 7
Intervention: Has been taking stool softeners
Trauma Date/Year:
Injury:
Mechanism:
Onset: 1-2 Weeks
Duration: 1-2 Weeks
Exacerbating Factors: Eating something, walking
Relieving Factors: Water
Reason Not Done:
Comments: Pain can be sharp at time, states it is also a nagging pain. Pain ranges 4-10.
